Grafikoan udal guztiak irudikatu dira bakoitzaren aurrezki garbiaren arabera.

Horretarako, udal bakoitzari bi balio esleitu zaizkio: X eta Y

X= Aurrezki garbiak 2010-2019 epealdian izan duen bilakaeraren adierazlea. Adierazle hori udal bakoitzean neurtu da erregresio linealaren lerrozuzenaren maldaren bitartez.

Y= 2019ko aurrekontuaren likidazioak eman duen aurrezki garbia.

Udal bakoitza irudikatua ageri da grafikoan bi balio horiek koordenatuen ardatzekiko hartzen duten posizioaren arabera.

Grafikoan irudikatu dira bi lerro ere, ardatzak mozten dituztenak, lau koadrante sortuz. Mozketa puntuak bat datoak X eta Y balioen batez bestekoekin. Hala, udalak lau multzotan banatzen dira, zein koadrantetan ageri diren kontuan hartuz, era honetan.

NOTAS AL GRÁFICO DEL AHORRO NETO

En el gráfico aparece representado cada municipio en función de su ahorro neto.

Para ello, a cada municipio se ha asignado un par de valores: X e Y.

X= Indicador de la evolución de su ahorro neto en el periodo 2010-2019, que viene medido por la pendiente de la recta de regresión lineal correspondiente.

Y= Ahorro neto obtenido en la liquidación del presupuesto de 2019.

Cada municipio aparece representado en el gráfico en función de la posición que ocupa dicho par de valores en relación a los ejes de coordenadas.

En el gráfico se han representado asimismo dos líneas que cortan los ejes y dividen el mismo en cuatro cuadrantes. Los puntos de corte se corresponden con la media de los valores X e Y. De este modo los ayuntamientos se agrupan en cuatro categorías diferentes, en función del cuadrante en que aparecen representados, del siguiente modo:

- Goiko eskuineko koadrantean ageri diren udalek, 2019an, aurrezki garbia batez bestekoa baino handiagoa izan dute, eta epealdian izan duten bilakaera batez bestekoa baino hobea izan da.
- Beheko eskuineko koadrantean ageri diren udalek, 2019an, aurrezki garbia batez bestekoa baino txikiagoa izan dute, baina epealdian izan duten bilakaera batez bestekoa baino hobea izan da.
- Goiko ezkerreko koadrantean ageri diren udalek, 2019an, aurrezki garbia batez bestekoa baino handiagoa izan dute, baina epealdian izan duten bilakaera batez bestekoa baino okerragoa izan da.
- Beheko ezkerreko koadrantean ageri diren udalek, 2019an, aurrezki garbia batez bestekoa baino txikiagoa izan dute, eta epealdian izan duten bilakaera batez bestekoa baino okerragoa izan da.
